# AquaQuick 2000

AQUAQUICK 2000 is a revolutionary water-based cleaning solution for Oil and Gas industry, marine, F&B, mining, aviation, and any other industry where hydrocarbons need to be removed. It is suitable for applications such as Oil Tank cleaning, Soil washing, Land remediation, oil spills, sea spills, pipeline cleaning, Bio-Pond, pit cleaning and Oil recovery.

AQUAQUICK 2000 is totally an eco-friendly product composed out of ecological materials and protects global environment from getting harmed. It is non-corrosive to the human skin and non-toxic to aquatic organisms in the minimum dilution rate.

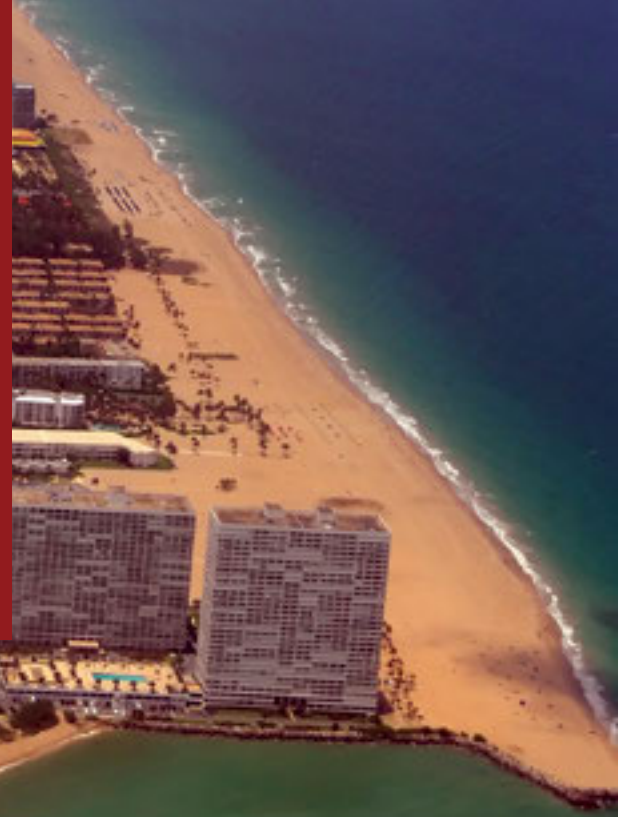

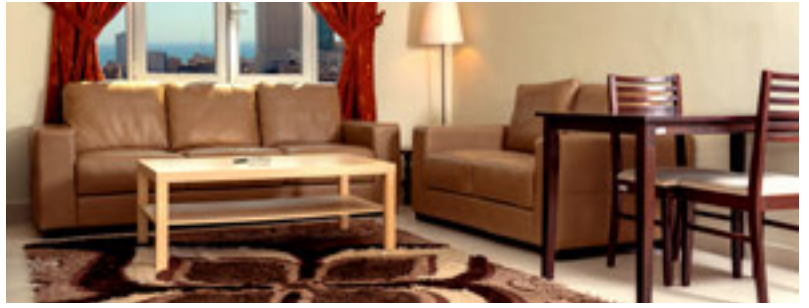

# Unmanned Inspection and Security Services

AVISIGHT is a global leader in unmanned Industrial Inspections and advanced Data solutions for critical infrastructure owners. The unmanned inspections are carried out by Drone technology and a proprietary AviSight C3UBE™ UAV command centre is utilized for BVLOS inspections and real time transmission. The proprietary Live Look Fault Vision™ enables real time detection of suspected fault with AI (Artificial Intelligence) assisted fault detection techniques.

The technology enables immediate shifting of contemporary Reactive Maintenance to highly efficient Preventive Maintenance, yielding significant cost savings in the maintenance sector of all industries including Oil & Gas and military. Additionally, the revolutionary technology exponentially increases safety, minimizing the high risks associated with inaccessible and remote industrial inspections.

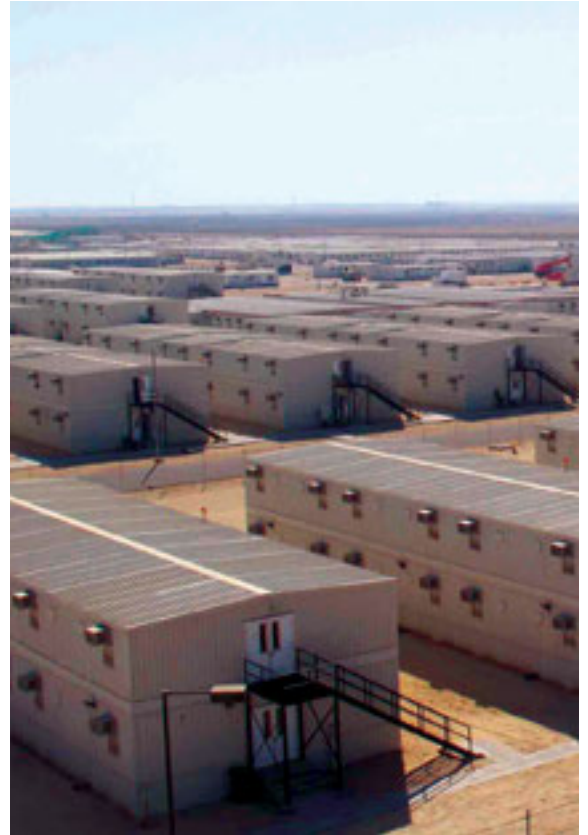

**AVISIGHT**
